The staff of McAlister Library wishes all students a productive New Year. To help the staff of the Library also have a productive New Year, students are asked to observe the following guidelines in using the Library:

- (1) Please, do not bring food or beverages into the Library.
- (2) Please, do not deface, mutilate, or otherwise damage books in the collection. The Library maintains three copy machines for student use so that students will not have to remove pages from a book in order to take information with them when they leave the Library.
- (3) Please, do not hide books in the Library. If you wish to use a book for an extended period of time, please check it out. Do not complicate the staff's work by hiding books in the stacks so that only you know where they are located. If a student reports a book listed in the card catalog missing, and it is not checked out, the staff must assume it is lost and order a replacement copy. The book budget cannot afford replacing books that are in hiding.
- (4) Please, do not attempt to check out books if you do not have a library card in your possession.
- (5) When you are finished using a book or journal, please return it to the floor of the Library on which you found it. This will greatly aid other students and the staff in finding and using the book.
- (6) In using certain journals, if they are kept in a cardboard file box, please return the journals to the file box when you are finished using them. Please, do not leave such unbound journals scattered about.
- (7) Please, do not attempt to reshelve a book after using it. Some of your fellow students are paid generous salaries to reshelve books, and they love to do it.
- (8) A guide to the journal holdings at the University of Southern California libraries is now available. This guide is kept on the Reference Librarian's desk at the west end of the Reference Room. A similar guide to the journal holdings at the Claremont library is available in the office of the Reference Librarian.
